

### The Company Environmental Policy

The environmental policy regards the following objectives: environmental protection, environmental quality improvement, protection of public health, prudent and rational employment of natural resources.

We are aware that the activities carried out in our company, i.e. the import and trading of electric, electronic, energy and IT products, PVC and aluminium profiles and fittings, as well as the materials employed for these products may generate an impact upon the environment.

The company top management commits to ensure an environmental policy which corresponds to the nature, dimensions and impact upon the environment of our company activities by:

Conformance to the applicable legal requirements and other environment-related requirement and to their evolution at national and international level, in relation to the activities carried out:

- continuous preservation and improvement of its environmental performances;
- prevention of pollution and avoidance of accidental pollution;
- establishment and analysis of environment related objectives and targets;
- elaboration of specific procedures and instructions for the environmental protection;
- communication of procedures and instructions to the entire staff;

To this end, we are pursuing the fulfilment of the following objectives:

- maintaining of the environmental management system;
- continuous training and raising of awareness of the entire staff in relation to the environmental management system;

Decreasing the quantities of waste resulting from the activities carried out, by recycling and reuse;

- proper use of natural resources, by decreasing the consumption of water, power;
- communication of the environmental policy by the entire company personnel to all parties interested in connection to our environmental performance;

Implementation of the quality management systems ISO 9001:2008, ISO 14001:2005 helps us ensure an efficient use of the environmental resources.

The seriousness, responsibility and orientation towards meeting the customer needs and towards the environmental protection are our present and future action channels.
