Offer text

Flexible connection cable for E-Line LED gear tray. 3-pole version for switchable gear trays (ET). For optimum positioning of the gear tray in continuous lines. Distance to plug may vary from 35 mm to 1000 mm. Phase selection is without use of tools. In combination with suitable LED gear tray and 07650/.../...-5LV/... (IP20) universal profile must be used.

Application note :

Collision points of the plug system with e.g. electronic control gear or other components must be prevented during planning and installation. Please observe installation instructions.
